

## **Community Activities Risk Assessment**

### **Low risk activity**

- Outside activities in small groups
  - Hiking, outdoor gatherings of family groups
- Outside group activities with vaccinated individuals
  - Small outside community activities in which vaccination status is required to attend

### **Moderate risk activity**

- Outside dining at a restaurant
- Large outside activities with others who have unknown vaccination status
  - Such as concerts, festivals, fairs, outdoor shopping areas, sporting events as a spectator
- Outside club sports competitions, especially unvaccinated and unmasked
  - Youth sports, adult leagues
- School where vaccination status is not mandated, without a mask
- Travel outside your community, with family, in private vehicle
- College visits, masked inside

### **High risk activity**

- Dining indoors in any setting
- Indoor club sports activities - youth or adult
- Using a gym (besides the Hebron gym)
- Any large indoor gathering
- Crowded indoor spaces included grocery stores and shops, concerts, performances
  - Public transportation- trains, buses, airplanes
  - Movie theatres
  - Mixed gatherings inside without masks- outside of family group, unknown vaccination status
  - Parties inside

**Mitigating risk**

Choose primarily lower risk activities

Choose activities with known vaccinated individuals

Wear a mask

Social distance

Protect the unvaccinated in your family

Report honestly
